

addactis® Pricing

addactis Pricing

The new advanced pricing process solution designed for expert actuaries in the non-life area.

A user friendly tool to prepare your data and design the right models.

A powerful GLM and Data Science engine to handle large data sets, all your models in one application.

Impact analysis and user defined reports to prepare your business decisions.

addactis® Pricing

Worldwide actuarial software. Local expertise. Worldwide presence.
Big capacity & performance driven actuarial software.
User friendly, Solvency II & SST compliant, IT integration.

Non-life insurance business has changed. Increased competition on price and price transparency, makes it harder to win business, to keep existing clients and maintain profitability. Actuaries are at the center of this battle for share of market and profitability, and they rely on powerful, easy to use and secure actuarial software to achieve it.

addactis® Pricing is specially dedicated to modeling needs of non-life (motor, household, etc.) pricing actuaries. At the core of the software is a GLM and Data Science engine designed to handle big data and to deliver very rapidly detailed results. A unique combination of graphs and tables helps you understand the data. Statistic models, impact analysis and simulations make it easy to reach the right business decisions.

addactis® Pricing is more flexible than other existing pricing tools due to its highly user friendly interface. With addactis® Pricing the entire pricing process is integrated and documented. addactis® Pricing

manages the data preparation, cleaning, mining and analysis processes of the model with a powerful GLM/GAM and Data Science engine. addactis® Pricing consolidates different scenarios and impact analysis. addactis® Pricing includes splines, large claim handling and model comparison. It also integrates a user friendly zoning module for geo-spatial smoothing. Impact analysis and out-of-sample simulations prepare the pricing decisions and help increase the profitability of your insurance business.

addactis® Pricing makes it easy to exchange results and keep track of all decisions made to elaborate the tariff. A full audit trail is provided of all changes made during the pricing process. Also included in addactis® Pricing are prints and exports of all intermediate results with a possible access to external databases.

addactis® Pricing is your tool to prepare efficient and profitable pricing in an user friendly environment.
